ASHUTOSH SONI

SENIOR SOFTWARE ENGINEER

(+91) 9149262609 | viknat1994@gmail.com | LinkedIn

PROFILE SUMMARY

- **Senior Software Engineer / Lead Developer** with **8+ years** of experience **building** and **scaling distributed backend systems** and high-throughput, real-time platforms.
- Well versed with the Technologies & Tools such as JavaScript, **Node.js**, MongoDB, Postgresql, Elasticsearch, Redis, AWS, REST apis, GraphQL, React.js Clojure, ClojureScript, Docker etc.
- Actively leverage **AI-powered** developer tools like **Cursor**, **ChatGPT**, and **Claude** to enhance productivity, accelerate development cycles, and improve code quality.
- Scaled systems supporting **5M+ users** and high-concurrency workloads
- Built **real-time data pipelines** (Postgres → Kafka → ClickHouse), enabling analytics at scale
- Strong ownership in system design, architecture decisions, and **performance optimization**
- Experience **mentoring developers**, driving technical discussions, and l**eading end-to-end feature delivery**
- Experienced in **Agile methodologies**, with hands-on exposure to Scrum practices, including sprint planning, backlog grooming, and cross-functional collaboration

PROFESSIONAL EXPERIENCE

Pidge Teachnologies, Gurugram — *Aug'25 - Apr' 26*

Senior Software Engineer

- Scaled a real-time logistics platform handling trip lifecycle processing for 100K+ daily orders, ensuring high availability and low latency
- Led development of a distributed Incentive System from scratch, improving user engagement and operational efficiency using NestJS, Kafka, Docker, ClickHouse, MongoDB
- Architected and implemented a CDC-based data pipeline (PostgreSQL → Kafka → ClickHouse) using Python, enabling near real-time analytics at scale
- Improved system performance through event-driven architecture, batching strategies, and backend optimizations

Stem Inc, Gurugram — *Aug'23 - Apr' 25*

Senior Software Engineer

- Developed and scaled the Athena Platform for managing energy storage assets in wholesale energy markets
- Led data ingestion, transformation, and validation pipelines, ensuring high-quality, reliable data for analytics and backend processing
- Designed and maintained microservices-based backend systems using Node.js and AWS, improving scalability and maintainability

PT Zenius Education, Indonesia — *Mar'20 - Aug' 23*

Senior Software Engineer

- Contributed to building Zenius Apps & LMS, a high-scale education platform serving millions of students
- Scaled platform from 10K → 100K DAU and supported 5M+ users, ensuring system performance under high load
- Designed and implemented scalable leaderboards and personalized learning systems, improving engagement and retention
- Built and enhanced distributed microservices architecture using Node.js, Kafka, Docker, Kubernetes, Redis, MongoDB, PostgreSQL, AWS
- Improved performance through query optimization, caching strategies, and asynchronous processing
- Leveraged Kafka for event-driven processing and Elasticsearch for search optimization
- Implemented cron jobs and background workers for large-scale data processing

Haldor Topsoe A/S, New Delhi *Nov'17 - Aug'19*

Software Engineer

- Developed TrueTemp, a Single Page Application (SPA) for analytical and graphical temperature analysis of industrial plant systems
- Led frontend development using ClojureScript (Re-frame), building a highly interactive and scalable UI
- Implemented subscription-based access control, enabling feature access based on user plans
- Designed and built data visualization systems for real-time analytics
- Integrated backend services and MongoDB, ensuring efficient data handling
- Deployed and managed applications on Azure App Service

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL, Clojure
Backend: Node.js, Express.js
Frontend: React.js, ClojureScript (Re-frame)
Databases: MongoDB, PostgreSQL, MySQL, Redis, Elasticsearch, ClickHouse
Infrastructure: Docker, Kubernetes, AWS, Jenkins, GitLab
Architecture: Microservices, Event-Driven Systems, REST APIs, GraphQL
Data Systems: Kafka, CDC Pipelines, Real-time Analytics

EDUCATION

- ***B.Tech.*** *(**Computer Science**) from B.I.E.T, Jhansi in **2017** with **77.9%***
- ***12th** from Agra Public School (**AISSCE**)(**CBSE**), Agra in **2013** with **85.6%***
- ***10th** from Air Force School (**CISCE**) (**CBSE**), Agra in **2011** with **10 CGPA***

ACHIEVEMENTS

- Served as Secretary of Computer Science Student Council at B.I.E.T. Jhansi
- Gold medalist in N.C.C. (National Cadet Corps) Certificate "A"

PERSONAL DETAILS

Date of Birth: 02-August-1995
Languages known: English and Hindi
Permananet Address: 30 Laxman Nagar, West Arjun Nagar, Agra - 282001
